

All-Inclusive Care

All Inclusive Care - Frequently Asked Questions

Q. What does “all-inclusive care rate” mean?

A. Our all-inclusive rate includes rent, utilities, housekeeping, meals, transportation, activities and programming, AND all assistance with daily activities which include medication management, dressing, bathing, gentle reminders and one-person transfers.

There is not a point system or level of care fee added to the base rent.

Q. Why does Traditions Senior Living use an all-inclusive rate platform?

A. At Traditions Senior Living, our focus is on our residents’ wellness. We want our staff to spend as much quality time with residents as possible. Our all-inclusive rate allows for this because it frees our care staff from spending unnecessary time adding up points to determine a resident’s care level. In addition, our residents and their families have the peace of mind of knowing that they won’t get a call about their loved one’s care level and rate increasing.

Unlike many other senior living communities, our rates include all care levels allowed in assisted living. You may find that others’ rent rates appear lower. This is because the starting rent rate does not include assistance-with-daily activities such as bathing, dressing, medication management, and gentle reminders. These services are assessed either by points or levels of care. The rate for these services are added to the monthly base rent.

At Traditions Senior Living, we want to take the anxiety of fluctuating rates and fees off your shoulders and give you peace of mind knowing what the rates are. Then we can all focus on the most important thing – your loved one.

Q. Does it mean that all of the residents will be high acuity in an all-inclusive building? Like a nursing home?

A. No. In fact, it is the opposite. It’s in everyone’s best interest to keep our residents well because the cost does not increase with increase in assistance. Focusing on wellness improves the quality of life for our residents. We believe that focusing on our residents’ wellness creates a much higher level of satisfaction for our staff, residents and their families.

Q. Does an all-inclusive rate mean big rate increases each year?

A. There is no difference in rate increase platforms between all-inclusive and level of care communities.
